

# Spectra

77% acrylic, 23% polyamide  
100g/33 yds

*Ruffles make this scarf fun to wear. But the amazing part of this scarf is how it's made. The ribbon is completely flat, with "boxes" on one end. Using a combination of Tunisian Crochet and "knitting" with a crochet hook, you have no ends to weave in when you are done!*

## Materials

Size L (7mm) Tunisian Crochet Hook with cable (must have a removable cap at the end)

*Note: All stitches are worked through the edge of the ribbon opposite the edge with the bubbles.*

**Step 1)** Starting at edge, insert hook from front to back through ribbon. Yarnover by inserting hook 1 or 2 spaces to the left from last entry point. Complete first chain by pulling yarnover through loop on hook. Repeat steps 1-2, 3 more times – 4 chains.

## Row 1

**Step 2)** Turn. [Insert hook in next chain and next loop of ribbon and bring up a loop] 4 times – 5 loops on hook.

## Row 2

**Step 3)** Turn. Slide stitches onto cable.

**Step 4)** [Insert hook through the work from front to back (under the cable), and through the center of the stitch, yarnover and pull up a loop] 5 times. 5 stitches on hook, and 5 stitches on the cable.

**Step 5)** Turn. Pull cable so that all stitches remaining on cable slide off. Slide sts that were on the hook onto the cable. Repeat steps 4 and 5 until scarf is desired length, and you have at least 7 loops left on ribbon to complete the final row.

## Last row

Do not turn. Yarnover and pull through first loop on hook [yarnover, pull through 2 loops on hook] across, until 1 loop remains on hook. Fasten off by pulling a yarnover through the remaining stitch.

1 ball of Spectra will yield a scarf 54-60" long. For a longer scarf, purchase additional yarn.
