

Garden Pillow

Show your passion for purple with this pretty pillow!

Herrschners

Four or five small beads
Invisible sewing thread
Matching sewing thread

GENERAL INSTRUCTIONS

Center the design in the lower left corner of the piece of fabric, 8" in diagonally from the corner, and begin stitching over two fabric threads. Use two strands of cotton embroidery floss to work cross-stitches. Use a pressing cloth to carefully iron the needlework from the back before finishing.

FINISHING INSTRUCTIONS

Note: Use a 1/2" seam allowance for all sewing unless otherwise noted.

Fold 3" on each side of the needlework to the back, making sure the stitched motif is centered evenly in one corner. Fuse the flaps to the back using fusible web (the piece should measure 11 x 11" at this point. Cut one 10 x 10" piece of interfacing and apply to the wrong side of the needlework. Cut one 15 x 15" piece of purple fabric for the front of the pillow. With right sides together, place the needlework diagonally on the front

of the purple fabric square on point so the stitched design is in the center of the purple square. Match the opposite corners of the needlework with the top corners of the purple square. Pin in place. Trim the excess needlework fabric that extends past the top of the purple square.

Cut two 15 x 20" pieces of purple fabric for the back. Fold and press each in half with right sides out to form two 15 x 10" pieces. Overlap the pieces at the folded edges to create a back panel measuring the same dimensions as the front panel. Pin in place. Place the pinned back panel on top of the right side of the front panel. Sew around all four edges. Remove pins from backing and turn pillow right side out through the envelope opening in the back. Insert pillow form through the opening in the back of the pillow cover.

Create the beaded drop by stringing four or five beads on a double strand of invisible sewing thread and sewing it in place at the back of the needlework point.

FABRIC

One 16 x 16" (40.6 x 40.6cm) piece of 28-ct. Antique White Jobelan® by Wichelt Imports (stitched over two threads)
