

Winter Birdhouse Towel

Herrschners®

Branch out with this charming birdhouse towel, ideal for the nature lover in your life.

Fabric

One Ecu Huck towel (15" × 25")

Design Size

14ct. = 4¼" × 4¼"

Instructions

Find the center and begin stitching. Use two strands of floss for all cross-stitches. Use one strand of floss for backstitches and straight stitches.

Note: The color red is the least stable dye in floss manufacturing. To prevent any potential problems, it is a good idea to presoak the red thread in a mixture of 1 gallon of water and 1 cup of white vinegar to set the dyes. Allow your thread to dry completely before stitching.

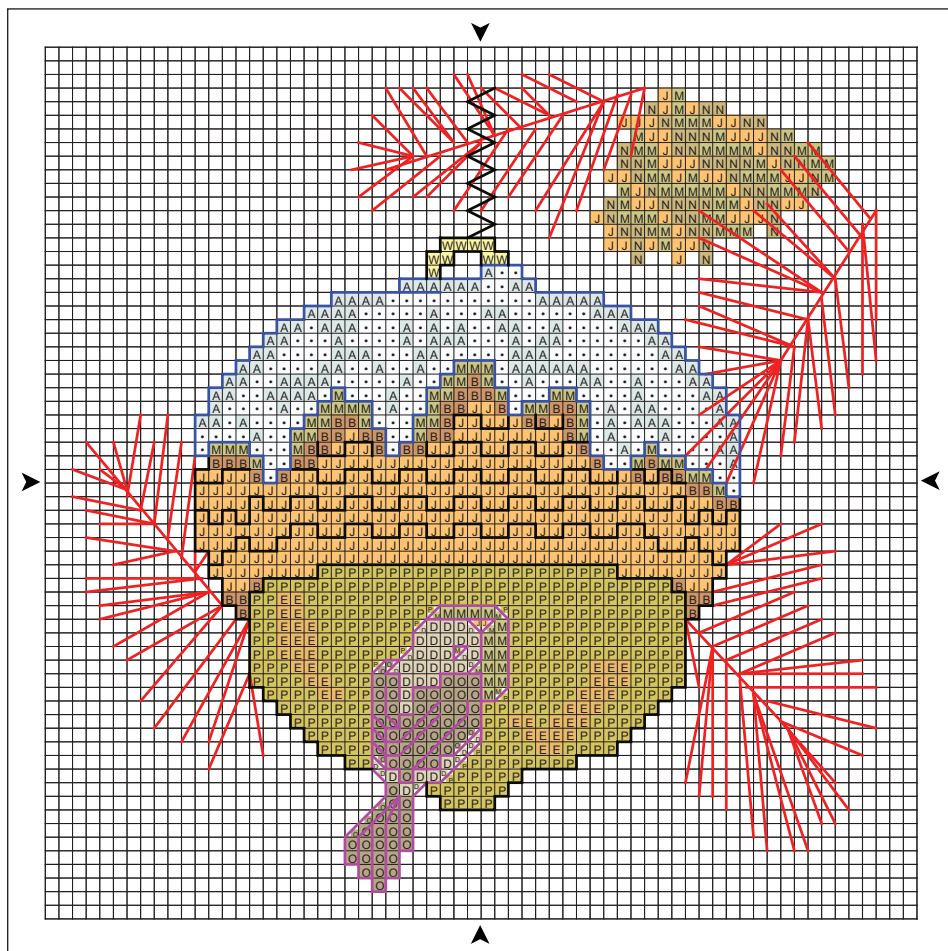

These towels are fully washable using the gentle cycle on your machine and mild detergent in cool water. Line-dry after washing and iron (sandwiched between two clean towels) with a hot steam iron.
