DIRECTIONS

Print pattern at 100%. Trace solid outline and cut out of cardstock. Refer to the dashed lines to make folds as indicated on the pattern. Punch the Square Rose punch design on each of the four sides of the box. (It may be helpful to turn the punch upside down and open the trap door to center the design.) Put a small amount of glue on the right side of tab A and affix to the back edge of the opposite panel to form the box. Hold in place until secure. Apply glue to the back of two bottom flaps opposite each other. Fold down the unglued flaps, then fold the glued ones down on top. Hold in place until set. Cut a piece of cardstock ½" × 4" and glue to the top inside edges of the paper to form the handle. Place a small piece of tissue paper in the basket and fill with your favorite treats!
