[herrschners.com](http://herrschners.com)

## TIPS AND TRICKS:

- Read all instructions before starting projects.
- Refer to directions on the fabric markers; some require pre-washed fabric or ironing.
- Test markers on fabric scrap to test for bleeding.
- Press gently to preserve marker tips.

## INSTRUCTIONS:

1. Cut out pattern pieces and pin to the front side of the bag, referring to photo for placement. Trace the pieces and remove pins and pattern pieces.
2. Place a piece of chip board or cardboard between the front and back of the bag to prevent bleeding while coloring your project.
3. Start in center of coloring space and work outward. If markers bleed, don't color to edges.
